

# Instruction Sheet for the 5ushiroll Hamburger Helper

Step 1: Put file where it should be

Have provided document “Python” in Documents

Python contains Script “CarrdTextGenerator”

 CarrdTextGenerator

This is in it:

 Scripts	12/9/2022 6:37 PM	File folder	
 Sprites	11/22/2022 3:00 PM	File folder	
 Texts	11/22/2022 5:22 PM	File folder	
 Sushiroll's Commission Form	12/12/2022 11:02 PM	CSV File	4 KB
 Put CSV File Here	11/16/2022 9:59 PM	Text Document	0 KB

## Step 2: Download and place CSV file

In the responses tab, click Download responses (.csv)

Drag and Replace new CSV file in this directory

Repeat this step to update new responses

### Step 3: Launch App

Click on Scripts and run ProgramExecutable

Name	Date modified
 Scripts	12/9/2022 6
 Sprites	11/22/2022
 Texts	11/22/2022
 5ushiroll's Commission Form	12/12/2022
 Put CSV File Here	11/16/2022

Name

-  \_\_pycache\_\_
-  CarrdGenerator
-  CarrdInProgressCompleted
-  ProgramExecutable
-  Run ProgramExecutable ^

## Step 4: Understanding the App

There will be 2 windows that launch: The Terminal

```
C:\Program Files\WindowsApps\PythonSoftwareFoundation.Python.3.10_3.10.2544.0_x64_qbz5n2kfra8p0\python3.10.exe

TestDemonifyMe: $200 USD       (Demonify Me: 200, 1 Char(s): 0, Background: NO)
```

Remarks mention anything that does not show in the total price, such as bad submissions, YCH's, and commissions that have more than 5 characters

```
REMARKS:
TestBadData: Error - Commissioned "Cell-Shaded" while answering "Simple (ref sheets only)" in the follow up question.
TestYCH: Commissioned a YCH (not included in total)
TestBanner: Commissioned more than 5 characters
```

The main app orders clients by the time it was submitted and by SubStars (SubStars being in blue)

# 5. TestHalfbody

# 6. TestComplexRef

Each client has buttons for completed, in progress, and colored names depending on status of paying. These buttons save progress when app is closed (In BETA, some bugs lol)

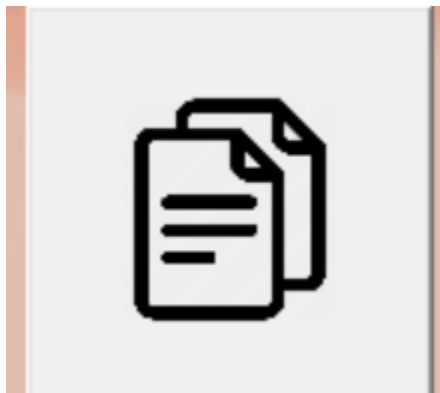

Reboot is a quick way to close and reopen the application.  
The app needs to restart when a new CSV file is in.

Clear resets all the buttons to their default setting (BLANK)

This is the copy to clipboard button, click this to copy the carrd data to your clipboard. CTRL+V onto carrd :)
